

# How to Use Snapchat and Instagram Filters

## TUTORIAL

### Use a Snapchat Filter

Snapchat face filters are silly and fun to share with friends. Here's how to try a few on:

1. Open Snapchat and go to the camera screen.
2. Tap on a face. Filter options will appear below.
3. Swipe left to select the filter you want to use.
4. Follow any action prompts that appear, like "Raise Your Eyebrows."
5. Tap the **capture button** to take a snap, or press and hold on the **capture button** to record a video.
6. You can access filters with the rear-facing camera as well, using the same process.

## TUTORIAL

### Use an Instagram Filter

Instagram filters can add drama and interest to your photos. To use them, follow these easy steps:

1. Open Instagram and tap on the + icon at the bottom of the screen.
2. Be sure the PHOTO option is selected, then press the **capture button** to take your photo.
3. Filter options will appear at the bottom of the screen. Swipe left to scroll through them, and tap on the one you want.
4. Tap **Next** in the upper-right corner.
5. Add details for your photo, then tap **Share** to send.
